

Port Restyle

Changes:

1. Change the main image of the dashboard-Current image looks to just be a cut off of a larger image and does not feel very professional
2. Implement 60/30/90 rule-Current pages are about 90% white and this makes the page feel a little bland
3. Utilize Franciscan's theme colors and include their gold and use more of their green to tie the page more to Franciscan

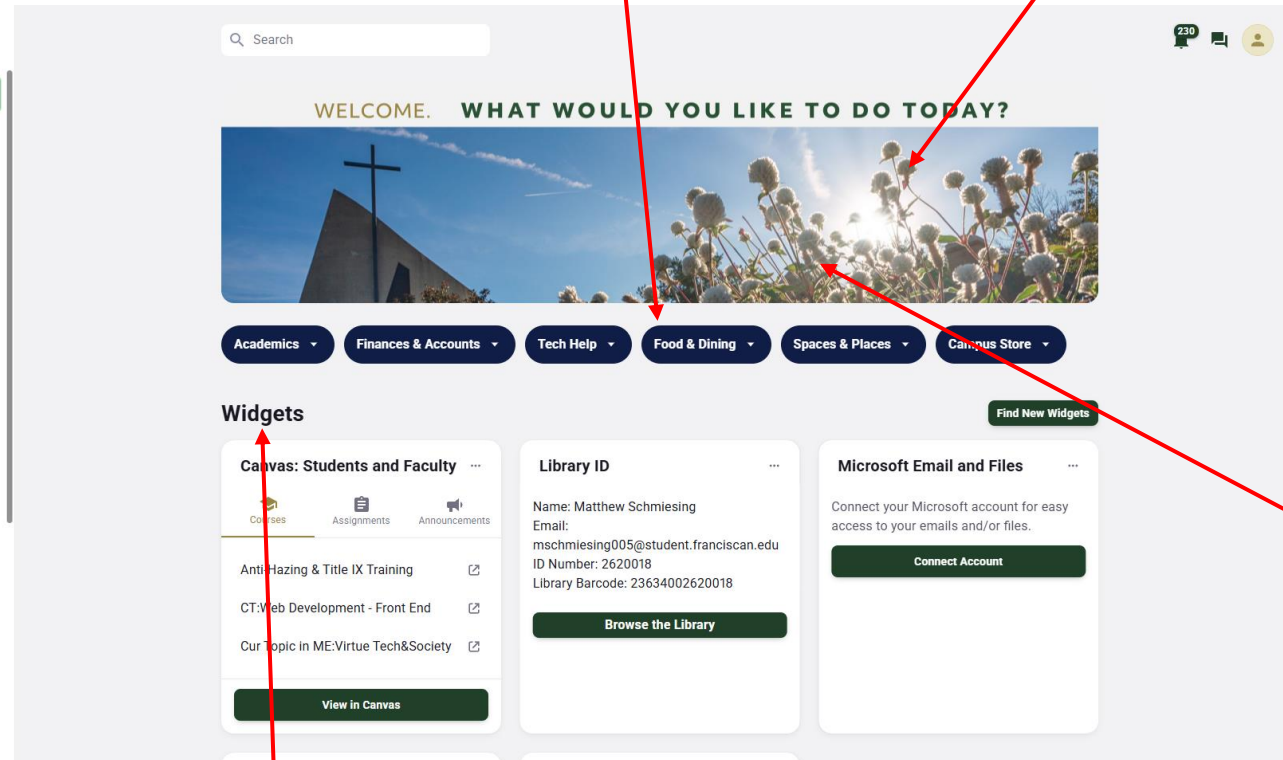

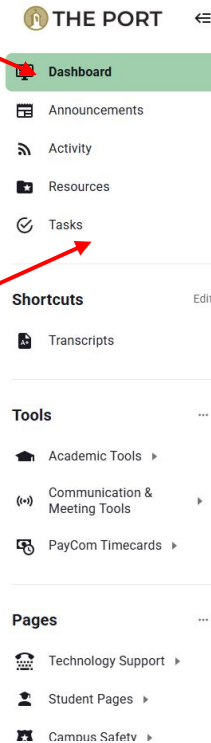

Original Page

3. Change the highlight to a gold to utilize all of Franciscan's colors

2. Change color of menu bar to help separate from the main page and to bring color ratios closer to 60/30/10

3. Get rid of the random blue and replace with Franciscan colors

3. Make sure new image follows color theme

1. Replace Image

2. Change some titles to gold to bring color ratios closer to 60/30/10

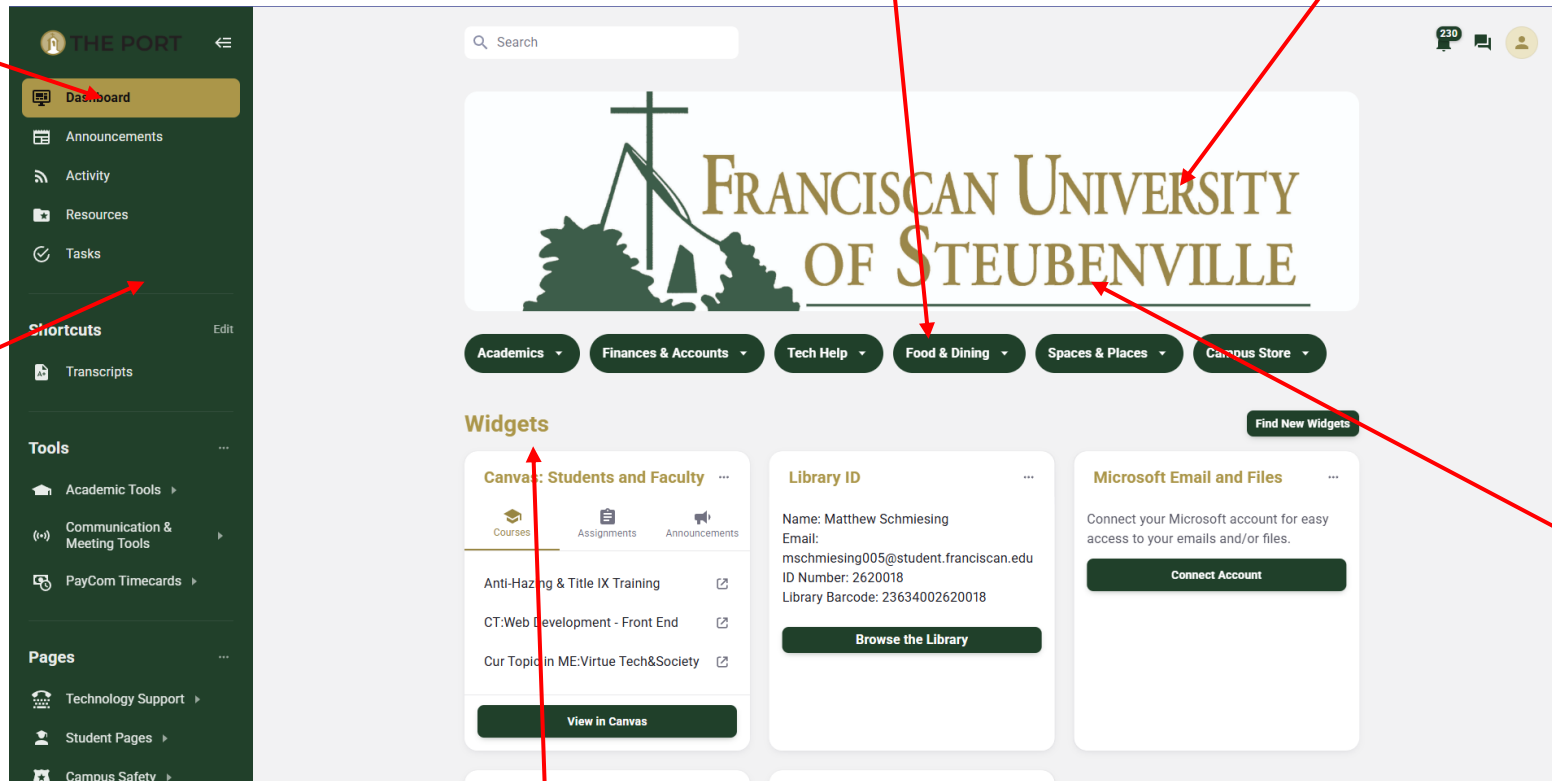

Improved Page

3. Highlighted colors are now gold

2. Green menu bar helps separate from main page and brings green ratio closer to 30%

3. Buttons are now green just like the rest of the buttons

3. New image follows color scheme

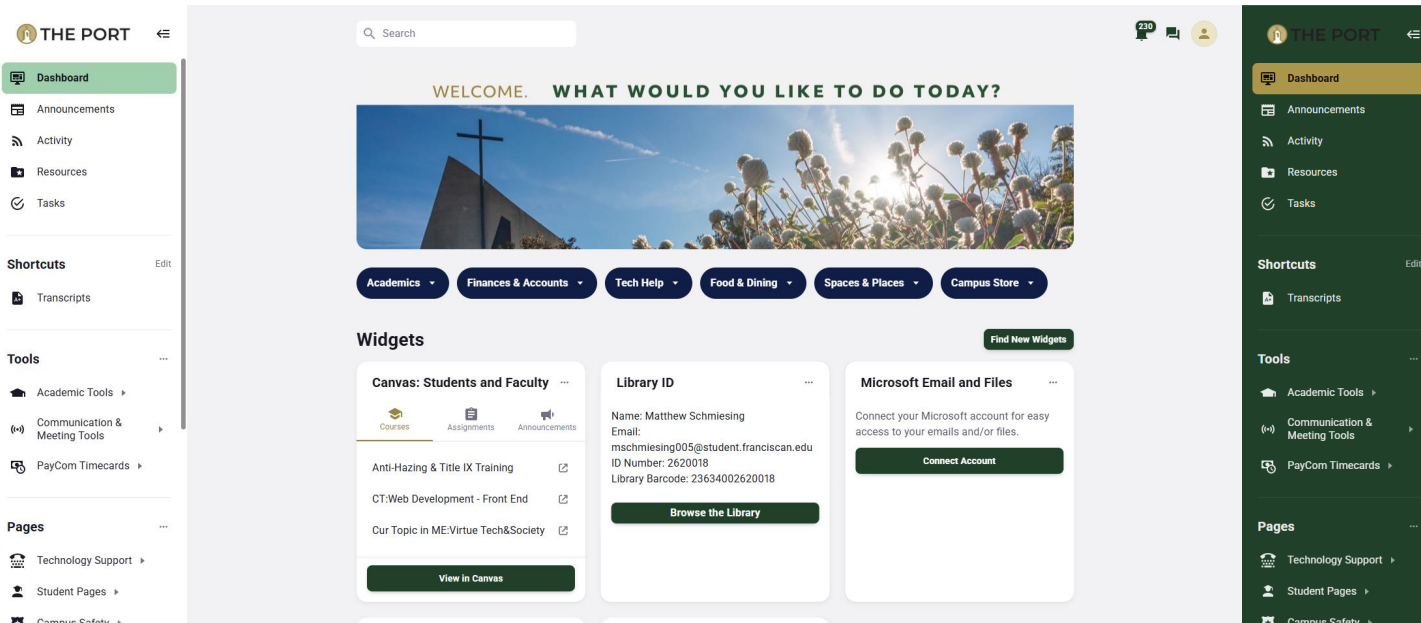

2. Gold title gold color ratio closer to 10%

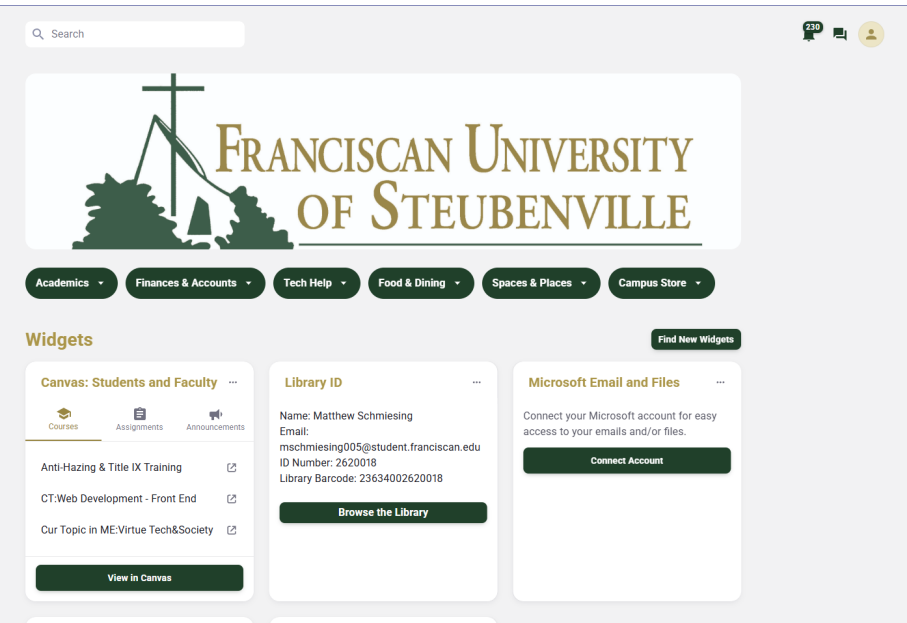

1. More professional uncut image
